REMIND NEWSLETTER #2

We are pleased to share this Newsletter featuring the first two major results developed within REMIND: **the Skills to Exploit TSG – Research Report** and the **Traditional Sports & Games Inventory**. These deliverables provide the foundation for all future activities and educational tools produced by the project.

Project Results

Throughout its implementation, REMIND has achieved significant results, strengthening competencies, networks, and educational resources for youth workers and the young participants involved.

1. Skills to Exploit TSG – Research Report

This research analyses the competences, training needs, and existing gaps among staff and volunteers working with Traditional Sports & Games (TSG) in grassroots sport and socio-cultural organisations.
